# A Sneak Peek

- Never miss a Single Appointment
- Display Appointments
- Create Appointments
- Answer Appointment Invitation
- Manage Appointments
- Share Calendars with Other Users

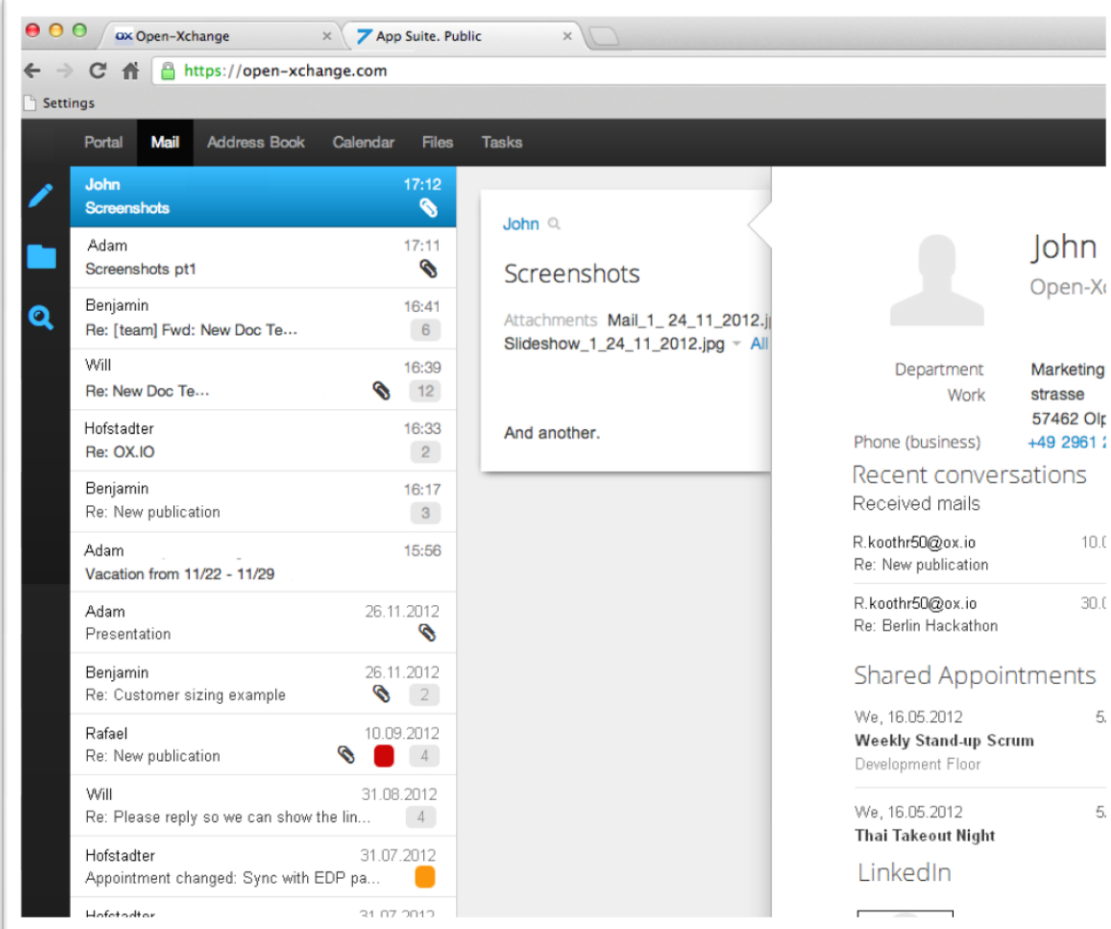

# Folder, tag, lists, Share – Your Inbox Has It All

- Choose your View
- Easy to use Toolbars
- Tags for Appointments

# The Halo View

- The Halo View opens a Popup with all Relevant Information on a contact:  
Addresses, E-Mail addresses, Phone Numbers,
- Your Current Correspondence with this Contact
- Shared appointments with this contact

The screenshot displays the Open-Xchange web interface. The browser address bar shows <https://open-xchange.com>. The main navigation bar includes 'Portal', 'Mail', 'Address Book', 'Calendar', 'Files', and 'Tasks'. The 'Mail' section is active, showing a list of messages. A 'Halo View' popup is open for the contact 'John', displaying a list of recent messages with details like sender, subject, and time. To the right of the popup, a contact profile card for 'John' is visible, including a placeholder for a profile picture, the name 'John', and the company 'Open-X'. Below the name, it lists 'Department Work' and 'Marketing strasse 57462 Olp +49 2961'. Further down, it shows 'Recent conversations' with received mails, including one from 'R. koothr50@ox.io' with the subject 'Re: New publication'. At the bottom, it lists 'Shared Appointments' such as 'Weekly Stand-up Scrum' and 'Thai Takeout Night'.

# The Portal

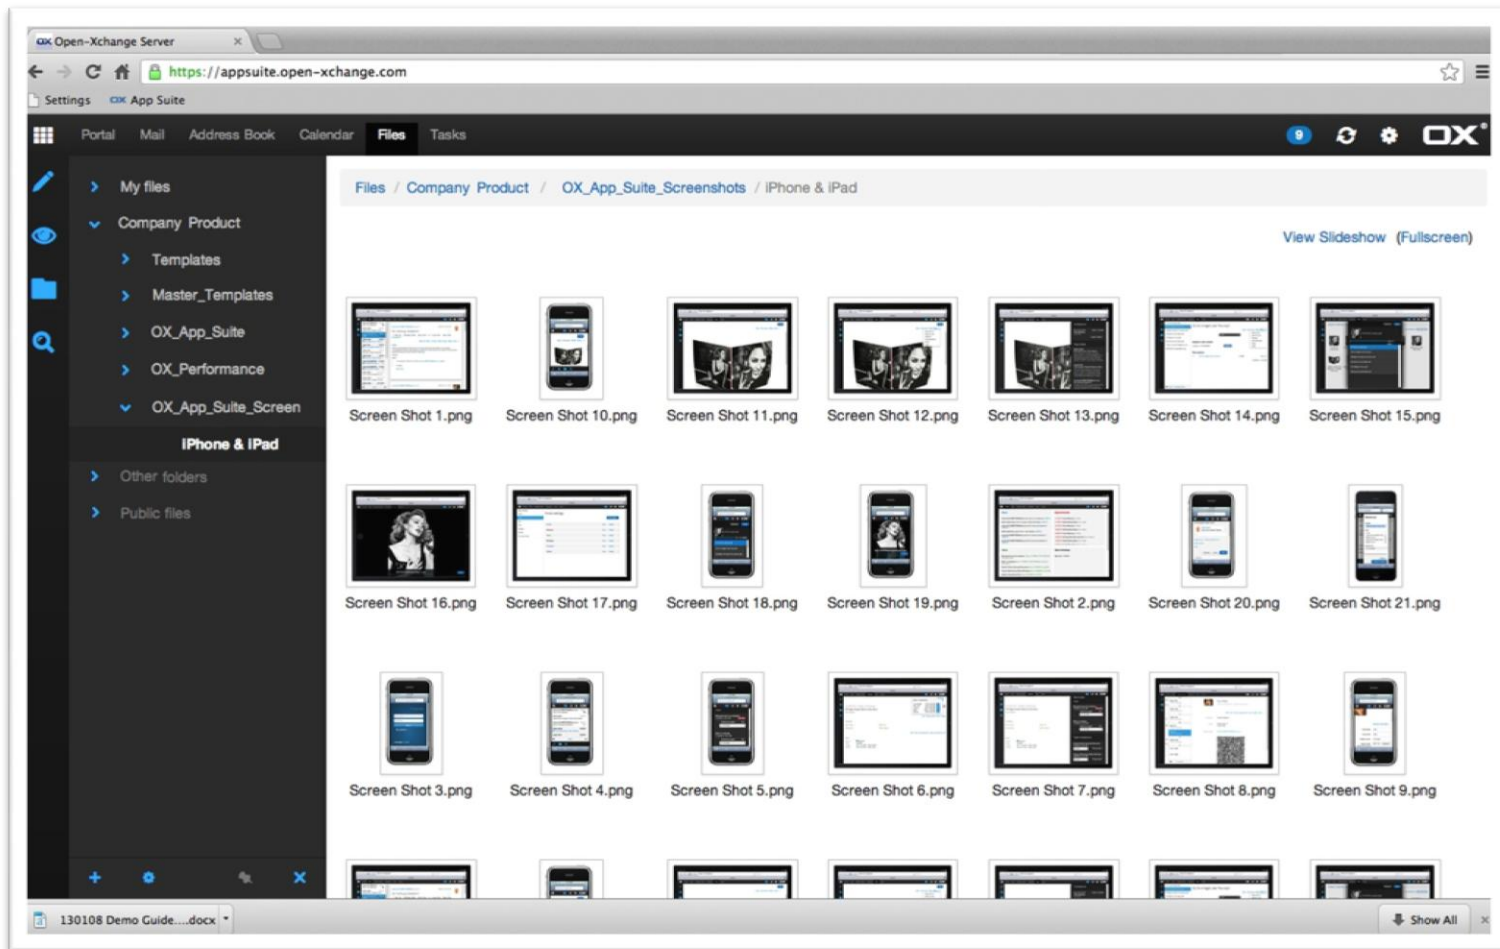

- Configure the portal so you can see all your important information in a single place
- Emails
- Appointments
- Events
- Social Integration

The screenshot displays a web portal interface for a user named David. The top navigation bar includes links for Portal, Mail, Address Book, Calendar, Files, and Tasks. The main content area is organized into several widgets:

- Inbox:** Lists several emails, including a task to create a product concept, a datasheet, and an event planning email.
- Facebook:** Shows recent updates from contacts like Rene Otto and Jochen Schude.
- Appointments:** A calendar view showing upcoming events such as press training, a demo, and a server installation.
- Tasks:** Lists tasks with due dates and reminders, such as planning a roadmap and a product launch.
- Next birthdays:** A section indicating no birthdays are due within the next 8 weeks.
- Quota:** A progress bar showing file quota usage (130 MB of 256 MB) and unlimited mail and mail count quotas.
- Social Integration:** A Twitter widget displaying a tweet from @Matt Asay about cloud migration.

# Create, Manage and Share Files
